EXPERIENCE

Internship at IIT Kharagpur

📅 May 26 2019–June 17 2019 📍 Kharagpur,India

- Learned Information Retrieval using Pylucene for Query Search in Text Documents

Frontend Developer at IIT Delhi

📅 April 13 2020–July 12 2020

- Contributed as Frontend Web Dev for Report site which was an on going project at IIT Delhi. I learned and used React Js for the site.

Fullstack Developer at Dailykit

📅 December 15 2021–March 15 2021

- Developed coupons and campaign page for main Store site using React Native.
- Developed different themes for theme product using embedded javascript.

PROJECTS

- Created [Covid 19 Tracker](#) using React JS. I used disease.sh API for covid information and Firebase for hosting. I have also used react-leaflet for World map.
- Created [Netflix](#) app Clone using React JS. I used TMDB API for all Netflix data and images and Firebase for hosting.
- [Portfolio](#) site using React Js. Here I used netlify for hosting purpose.
- [Messenger](#) app clone using React Js. Here for backend I used Node Js and MongoDB for database . Also Firebase for hosting.
